1. "Heavy	antitank regime			. 27.2		2.0
8	the destruct	universal one stion of heavy tateration of armostruction of armostructure a	and is meant nks with armo red domes and	for: m of up to a l turrets, et	209 .	
a b c d d d d d d d d d d d d d d d d d d	the destruct the dest the neut fire on owing data are av aliber ength of tube	a universal one tion of heavy tautruction of armouralization of endistant targets vailable about to 100 mm 50 cm	and is meant nks with armored domes and memy artiller he above gum: m	for: m of up to a l turrets, e	200 ma. tc.	
a b c d 2. "The foll C I	the destruct the dest the neut fire on owing data are av aliber ength of tube nitial velocity	tion of heavy tartruction of armorralization of edistant targets railable about to	and is meant nks with armored domes and nemy artiller the above goss: alibers /sec	for: m of up to a l turrets, e	200 ma. tc.	
a b c d 2. "The foll I I I	the destruct the dest the neut fire on owing data are av aliber ength of tube mitial velocity eximum velocity	tion of heavy tartruction of armoredization of edistant targets valiable about to 100 mm 20,000 mm 20,000 mm	and is meant nks with armored domes and nemy artiller he above gum: m alibers /sec	for: m of up to a l turrets, e	200 ma. tc.	
a b c d 2. "The foll I I B A	the destruct the dest the neut fire on owing data are av aliber ength of tube nitial velocity	tion of heavy tartruction of armore truction of armore distant targets valiable about to 100 mm 50 cm 20,000 mm trical 300 de 100 mm 10	and is meant nks with armored domes and nemy artiller the above goss: alibers /sec	for: m of up to a l turrets, e	209 ma. tc .	
a b c c c c c c c c c c c c c c c c c c	the destruct the dest the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity aximum velocity agle of fire: hor peed of shooting	tion of heavy tarticular to of armore truction of armore truction of armore truction of endistant targets valiable about to 100 mm 50 cm 20,000 mm 20,000 mm trical 30° cm 20 sh	and is meant nks with armo red domes and nemy artiller he above gum: m alibers /sec _ 400	for: m of up to a l turrets, en	209 🗪 . tc .	
a b c d 2. "The foll C I I M A A S S	the destruct the dest the neut fire on owing data are av aliber ength of tube mitial velocity aximum velocity aximum velocity aximum of fire: hor peed of shooting ange of direct fire	tion of heavy tarticular targets valiable about to the solution of endistant targets valiable about the solution of endi	and is meant nks with armored domes and memy artiller he above gum: m alibers /sec _400 ots per minut	for: m of up to a l turrets, en	200 ma.	
a h c c c c c c c c c c c c c c c c c c	the destruct the destruct the neut fire on owing data are availaber ength of tube mitial velocity aximum veloc	tion of heavy tar truction of armo- tralization of endistant targets vailable about to 100 mm 50 cm 300 mm 20,000 mm rtical 30° rizontal 54° 1,000 mm fing begins at 2	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are avaliber ength of tube nitial velocity aximum veloci	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are availaber ength of tube mitial velocity aximum veloc	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are avaliber ength of tube nitial velocity aximum veloci	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are avaliber ength of tube nitial velocity aximum veloci	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are avaliber ength of tube nitial velocity aximum veloci	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the dest the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity agle of fire: ven ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of '100 mm moved by fast jee	tion of heavy take truction of armony take truction of armony take truction of armony take truction of armony take the distant targets allable about the second second and second and second and second are 1,000 m ring begins at 2 me and - end - end -	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the dest the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity agle of fire: ven ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of '100 mm moved by fast jee	tion of heavy take truction of armostration of armostration of armostratization of edistant targets valiable about the solution of the solutio	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity aximum velocity angle of fire: ver ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of 'loo mm moved by fast jee LIBRARY SUBJEC C-02-0615	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll I A A S F The batt	the destruct the dest the neut fire on owing data are av aliber ength of tube mitial velocity male of fire: hor ngle of fire: hor ngle of shooting ange of direct frire by direct lay eries of '100 mm moved by fast jee	tion of heavy take truction of armongralization of experiments of	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut	for: m of up to a turrets, e		
2. "The foll I A A S F The batt	the destruct the destruct the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity aximum velocity angle of fire: ver ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of 'loo mm moved by fast jee LIBRARY SUBJEC C-02-0615	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and memy artiller he above gos; m alibers /sec400 ots per minut	for: m of up to a turrets, e		
2. "The foll A A S F 3. "The batt	the destruct the destruct the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity aximum velocity angle of fire: ver ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of 'loo mm moved by fast jee LIBRARY SUBJEC C-02-0615	tion of heavy take truction of armongralization of endistant targets valiable about the solution of endistant targets valiable about th	and is meant nks with armored domes and nemy artiller he above gum: m alibers /sec _ 400 ots per minut ,000 m.	for: m of up to a turrets, e		
2. "The foll I A A S F The batt	the destruct the destruct the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity aximum velocity angle of fire: ver ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of 'loo mm moved by fast jee LIBRARY SUBJEC C-02-0615	tion of heavy take truction of armous realization of armous realization of endistant targets railable about to the second	and is meant nks with armored domes and nemy artiller he above gum: m alibers /sec _ 400 ots per minut ,000 m.	for: m of up to a turrets, e	each.	
2. "The foll I A A S F The batt	the destruct the destruct the neut fire on owing data are av aliber ength of tube nitial velocity aximum velocity aximum velocity angle of fire: ver ngle of fire: hor peed of shooting ange of direct fri ire by direct lay eries of 'loo mm moved by fast jee LIBRARY SUBJEC C-02-0615	tion of heavy take truction of armongralization of endistant targets valiable about the solution of endistant targets valiable about th	and is meant nks with armored domes and nemy artiller he above gum: m alibers /sec _ 400 ots per minut ,000 m.	for: m of up to a turrets, e	each.
